

## Effectiveness Data for Learning Lab Centers

August 10, 2008

This report was requested by the Assistant Directors of Learning Resources to assist in evaluating the effectiveness of expected outcomes for the college's Learning Lab Centers.

### GPA Analysis

In fall 2007, a comparison of GPA for students who use the Learning Lab for at least 36 hours of instruction was compared with students who did not use the Learning Lab services.

#### One-Variable Statistics for Learning Lab Usage - Fall 2007

Student Group	Fall 2007 GPA	Std Dev
Learning Lab Usage > 36 hrs	2.77	1.04
All students	2.59	1.28

### College-wide Usage Data

Data for Fiscal Year 2008, July 1, 2007 to June 30, 2008 was collected using the *Student Tracker* software system created by the MGCCC Computer Information Technology Center.

#### FY 2008 Learning Lab Usage

Content Area	Students (unduplicated)	Number of Visits	Hours of Instruction
Mathematics	1,844	9,266	10,730
Writing	1,576	5,435	5,564
Reading	589	1,295	1,226
Science	1,508	5,616	5,847
Accounting	130	257	255
Computer/Independent Study	5,437	50,197	28,263
Total Usage	11,084	72,066	51,885
