

Lean Enterprise Training

Spring 2010

Lean Enterprises: A business system for organizing and managing product development, operations, suppliers, and customer relations. A Lean Enterprise produces more existing resources by eliminating non-value added activities.

Benefits of Implementing Lean Enterprise Training:

- Reduce Cycle Time
- Reduce Inventory
- Reduce Work-In-Progress (WIP)
- Reduce Costs
- Increase Capacity
- Improve Lead Times
- Increase Productivity
- Improve Quality
- Increase Profits
